

### **REMARKS**

This paper is being provided in response to the Office Action mailed July 14, 2005, for the above-referenced application. In this response, Applicants have amended claims 4 and 16 to clarify that which Applicants consider to be the invention. Further, Applicants have amended the specification and drawing for purposes of clarification. Applicants respectfully submit that the amendments to the claims are fully supported by the originally-filed specification and that the amendments to the specification and drawing do not add new subject matter.

Applicants thank the Examiner for allowing claims 12-15.

The objections to the specification for informalities have been addressed by amendments contained herein in accordance with the guidelines as set forth in the Office Action. Accordingly, Applicants respectfully request that these objections be reconsidered and withdrawn.

The objections to the Figs. 4 and 5A of the drawing have been addressed by amendments contained herein in accordance with the guidelines as set forth in the Office Action. As explained above, Fig. 5A has been amended to designate -- 4' -- as the division line of hologram 4 and corresponding amendments have been made to the specification for consistency. Accordingly, Applicants respectfully request that this objection be reconsidered and withdrawn.

The rejection of claims 4-7 and 16-21 under 35 U.S.C. 112, first paragraph, and the corresponding objection to the drawing in relation to these claims, have been addressed by

amendments contained herein in accordance with the guidelines as set forth in the Office Action. Applicants have amended claims 4 and 16 to remove reference to a division line. Accordingly, Applicants respectfully request that the rejection and objection be reconsidered and withdrawn.

Based on the above, Applicant respectfully requests that the Examiner reconsider and withdraw all outstanding rejections and objections. Favorable consideration and allowance are earnestly solicited. Should there be any questions after reviewing this paper, the Examiner is invited to contact the undersigned at (508) 898-8603.

Respectfully submitted,

**AMENDMENTS TO THE DRAWING:**

Replacement Sheet 7 is attached hereto containing a revised Figure 5A. In the revised Figure 5A, the former reference numeral "5" designating the division line of hologram element 4 has been replaced with reference numeral -- 4'--. Applicants respectfully submit that no new matter is added by this amendment.
